PERSONAL SUMMARY

Third-year Computer Science & Software Engineering student at Maynooth University (graduating 2028), specializing in Java backend development and REST API design. Actively building personal projects outside of coursework, demonstrating practical experience with Spring Boot, MySQL, MongoDB and full-stack web development. Strong communicator with 5 years of customer-facing work experience alongside studies. Seeking a software development placement starting January 2027

EXPERIENCE

- Sales Assistant** JYSK — Navan, Co. Meath 04/2026 – Present
- Assist customers in selecting home furnishing and lifestyle products in a fast-paced retail environment
 - Operate POS systems handling cash and card transactions accurately
 - Maintain store presentation and restock shelving to brand standards
- Team Member** Subway — Navan, Co. Meath 09/2025 – 04/2026
- Independently opened and closed store, managing all operational and security procedures
 - Handled till balancing, stock control, inventory tracking and health & safety compliance
- Customer Service Leader** McDonald's — Navan, Co. Meath 10/2021 – 08/2025
- Led team operations during peak periods across customer service, kitchen and floor management
 - Resolved customer issues daily, maintaining consistently high satisfaction and audit scores
 - Covered additional locations including Dundalk — trusted with cross-site responsibility

PROJECTS

- Trade Journal API** 2025
Java · Spring Boot · Spring Data JPA · MySQL · Swagger · Maven
- RESTful API for logging and analysing trades — entry/exit price, direction, size, and automatic P&L calculation
 - Stats endpoint returning win rate, total P&L and trade count across all logged positions
 - Filtering by symbol and date, Swagger UI documentation, layered MVC architecture (controller/service/repository)
 - Built for personal use — motivated by day trading the NY session, no suitable free tool existed
- GitHub: github.com/CezaryCichy/trade-journal
- Subway Calorie Counter** 2025
Java · Maven · Swing
- Desktop GUI app for building a Subway Ireland order step by step with real-time calorie and macro breakdown
 - MVC architecture with separate classes for data (MenuData), business logic (OrderCalculator) and UI (SubwayApp)
 - Nutrition data sourced from Subway's official UK & ROI PDF, accurate to individual ingredient slices
 - 7-screen CardLayout wizard with wrap/6-inch/footlong selector adjusting calorie multiplier automatically
- GitHub: github.com/cezarycichy/subway-calorie-counter
- Grade Tracker** 2025
HTML · CSS · JavaScript · Node.js · Express · MongoDB Atlas · Mongoose
- Full-stack student grade tracking app with a Node.js/Express REST API and MongoDB Atlas database
 - Mongoose schema for student records (name, subject, grade) with full CRUD via GET, POST, PUT, DELETE endpoints
 - Vanilla JS frontend using fetch() to communicate with the backend — no frameworks, no build tools
 - Single page UI with inline editable grade fields and live delete functionality
- GitHub: github.com/CezaryCichy/grade-tracker

EDUCATION

- BSc Computer Science & Software Engineering** Graduating 07/2028
Maynooth University
- Relevant coursework: Databases · Algorithms & Data Structures · Computer Architecture · Web Information Processing · Operating Systems · Software Testing · UX/UI Design · Theory of Computation

TECHNICAL SKILLS

Languages: Java, JavaScript, HTML, CSS

Frameworks: Spring Boot, Spring Data JPA, Express.js, Maven, Node.js

Databases: MySQL, MongoDB Atlas, Mongoose, relational database design

Tools: Git, GitHub, VS Code, IntelliJ IDEA, Swagger UI

Concepts: OOP, MVC, REST API design, data structures & algorithms, software testing & debugging

CERTIFICATIONS

- Manual Handling
- Level 2 Food Safety & Hygiene (Fast-Food Operations)
- Customer Service & POS System Training
- Workplace Health & Safety Training

LANGUAGES

Polish, English — First Language

HOBBIES & INTERESTS

Strength training and maintaining an active lifestyle • Java development and personal projects • Financial markets and technical analysis • Day trading (NY session)
